NEW HIGH RECORD MADE BY READING

Stock of Railroad Advances One and a Quarter.

MARKET'S UNDERTONE FIRM

Indefiniteness of Russian - Japanese Parley Situation Has Its Effect.

NEW YORK, Aug. 12.-The indefiniteress of the Russian-Japanees peace negotiations situation and the expecta-tion on the part of the traders that the bank statement would be unfavorable, together with end-week closing of speculative accounts, gave the market an appearance of irregularity early, and raused some moderate recessions in prices in some cases.

The undertone of the market, however, was very firm, and some stocks made ar excellent showing, Reading making a new high record on the movement at an advance of 1¼ per cent. St. Paul, Union Pacific, Erie issues, Chicago Great Western, and other stocks gained from 1/2 to 1/2 per cent. Paris rentes and British consols were reported a shade higher at the close, and declines of 1 per cent in wheat and of 1/2 cent in corn were reported.

Amalgamated Declines.

Amalgamated Copper declined 1/2 per cent in the first hour on selling by a house that frequently transacts busihouse that frequently transacts business for Boston. The traders professed to feel some apprehension over the tenor of part of President Roosevelt's A GENERAL DECLINE IN speech delivered at Chautauqua yester-

The bank statement showed a some what larger loss in cash than had been

ferred responded immediately, considerable takings of Erie first preferred for investment being reported. Toward the close Reading continued to advance and the transactions in the stock were on a large scale.

Baltimore and Ohio recovered an early slight decline, and was firm as a re-actional advance over yesterday's final price, which was also the opening figure. In the general list rallies of 1/4 to 1 per cent occurred. Amalgamated Copper, however, continued to lag. Atchison, Chicago, Great Western, Rock Island, WEEKLY STATEMENT and other granger shares retained fractional improvements.

Metropolitan Street Railway was an exception in failing to recover any part of an early decline of a point. Canadian Pacific, on the other hand, made up the greater part of an early loss due to prealizing sales.

realizing sales.

In the final trading Reading reached a new high record, on the day's movement, selling at 110, the highest price ever recorded for it. The closing was somewhat irregular on professional of-

COTTON MARKET DULLER;

Slump Due to Spot Staple at Liverpool Declining Two Points.

NEW YORK, Aug. 12.-The cotton market was very quiet today. In fact, it was the dullest session for the past two or three months. Trading was of the smallest proportions, and fluctuations were confined within a range of 8 to 4 points after the opening, when the market started with a decline ranging from 8 to 10 points from last night's closing quotations.

The slump was due to spot cotten at Liverpool declining 2 English points, and futures there closing with a net decline of about 4 points, when an advance of 3 points had been expected, and was necessary to have equaled our net advance of 10 points of yesterda.

The slump at Liverpool was due to liquidation, and bear pressure by local and New York operators. Most of the large operators were out of the city. and with the rank and file disinclined to extend their internal to extend their interests very much either way, nending further developto extend their interests very much ments in regard to the crop situation and outlook, the market was left to the scalping contingent. Spot markets were dull and generaly unchanged, but conditions were more in buyers' favor. Open. High. Low. Close

TONE IN LONDON DULL AMERICAN'S MOST ACTIVE

LONDON, Aug. 12.-Business on the stock exchange was generally dull. Some selling to close accounts prior to Monday's carry-over caused fractional declines in several departments. Consols were steadier on easier money.

American stocks were the most ac tive. This section opened steady, but the movements were mixed, several stacks going below parity. The opera-tions were chiefly owing to the evening-

Money today was more plentiful, and discounts were easier, being affected by the rise in French exchange.
